Narrative:

06/20/2009 07:39:24 SHEARER

Responded to structure fire at the Georgia Theater. Soon as we left station we saw heavy smoke showing. I went ahead and notified central to have second alarm enroute. Upon arrival on scene there was heavy smoke and flames showing through roof on the C and D side of structure. I notified next arriving engine to lay lines to hydrant. We pulled two 1 3/4 attack lines to the A side of structure. We made entry and shortly after made the decision that fire was to advanced to make an interior attack from A side of structure. We then went to the C and D side of structure and found heavy fire coming from door on that side of structure. There was a space on left side of door that was already open, and then I forced entry through that door. We tried to attack fire from that location but found fire conditions were to bad to advance. We then made decision to go defensive and use ladder trucks to extinguish fire. We continued using defensive mode through out the rest of the day. At the present time of filling report out trucks are still on scene and investigation is still on going.
